How to re-set your password?

1. Go to WESR Training portal

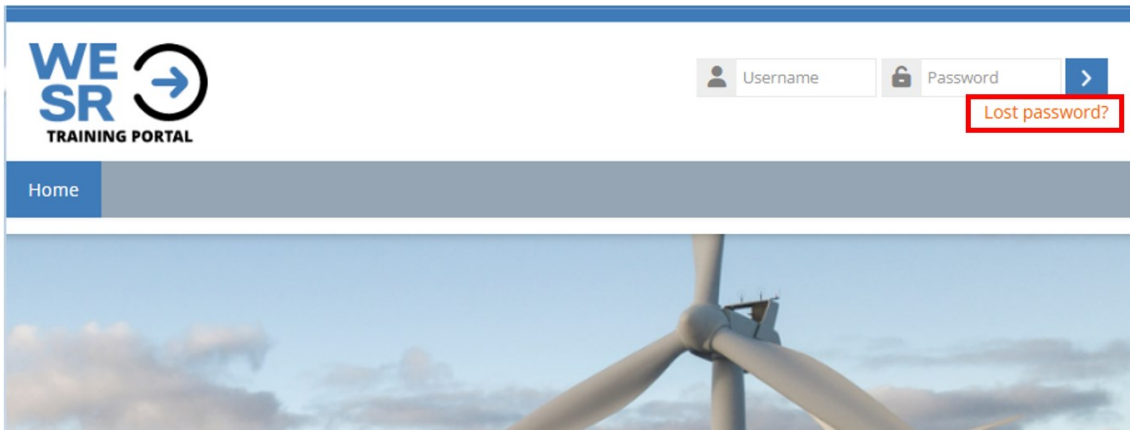

Open your browser and go to https://wesrap.safe-energy.se/.

You will get to the start page where you can see a list of available courses.

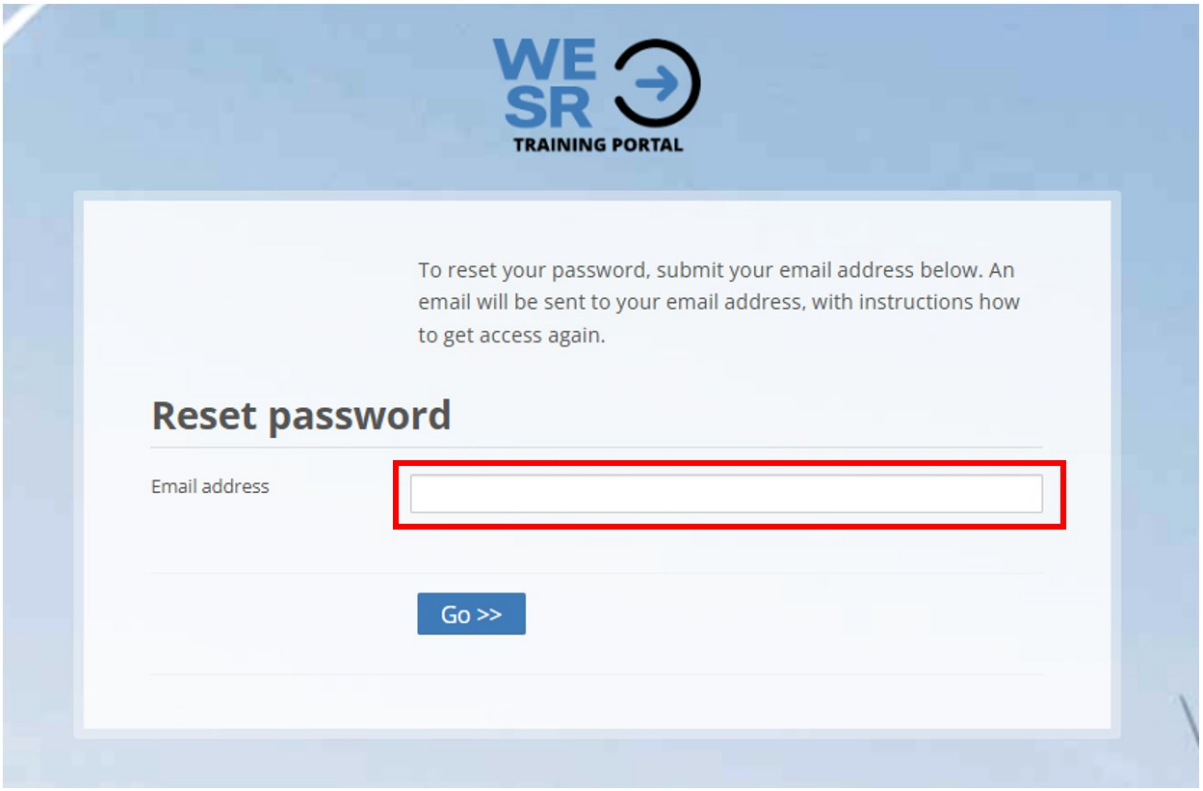

2. Click on “Lost password”

To the top right of the screen, click on “Lost password?”

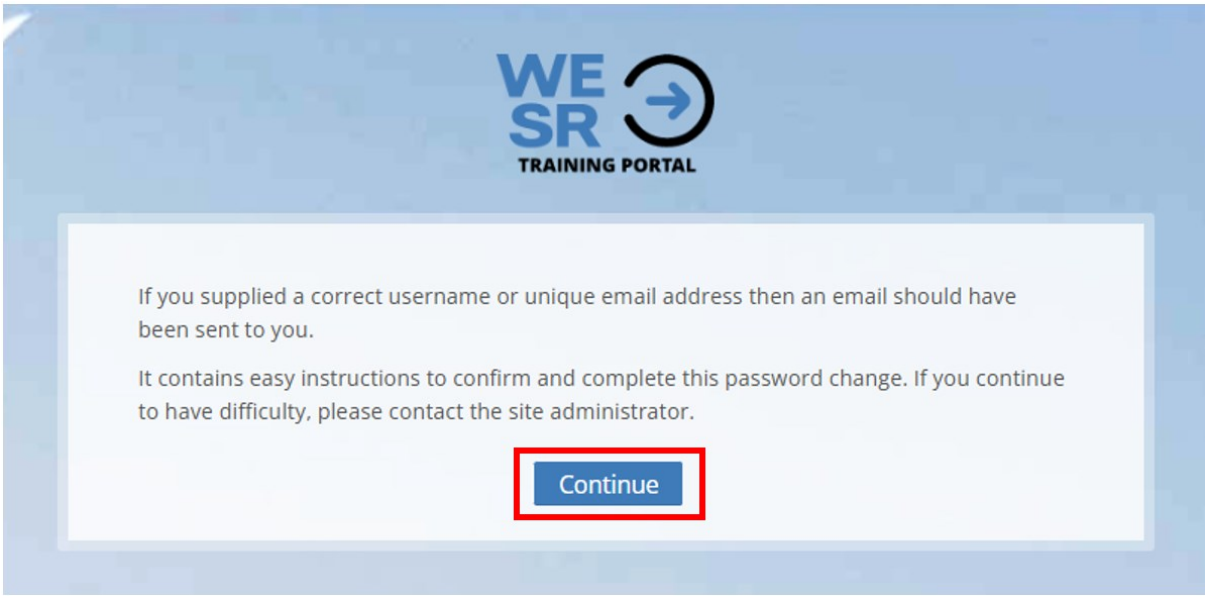

3. Enter your e-mail address

Click on the text field and enter your e-mail address. Click on the button "**Go**", then an e-mail with instructions on how to re-set your password will be sent to the e-mail address that you entered.

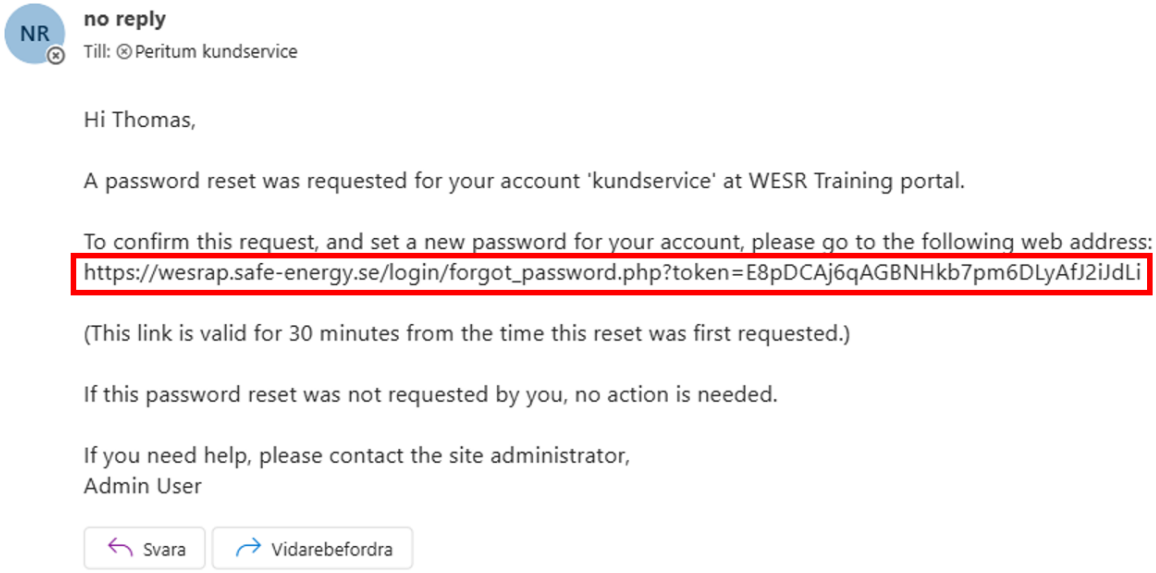

4. Click on Continue

An e-mail has been sent to you which contains easy instructions on how to confirm and complete the password change. Click on the "**Continue**"-button.

5. Open your e-mail

Open the e-mail that has been sent to you. It contains a link that you need to follow. If you cannot click on the link, you need to copy it and paste it in your web browsers address field.

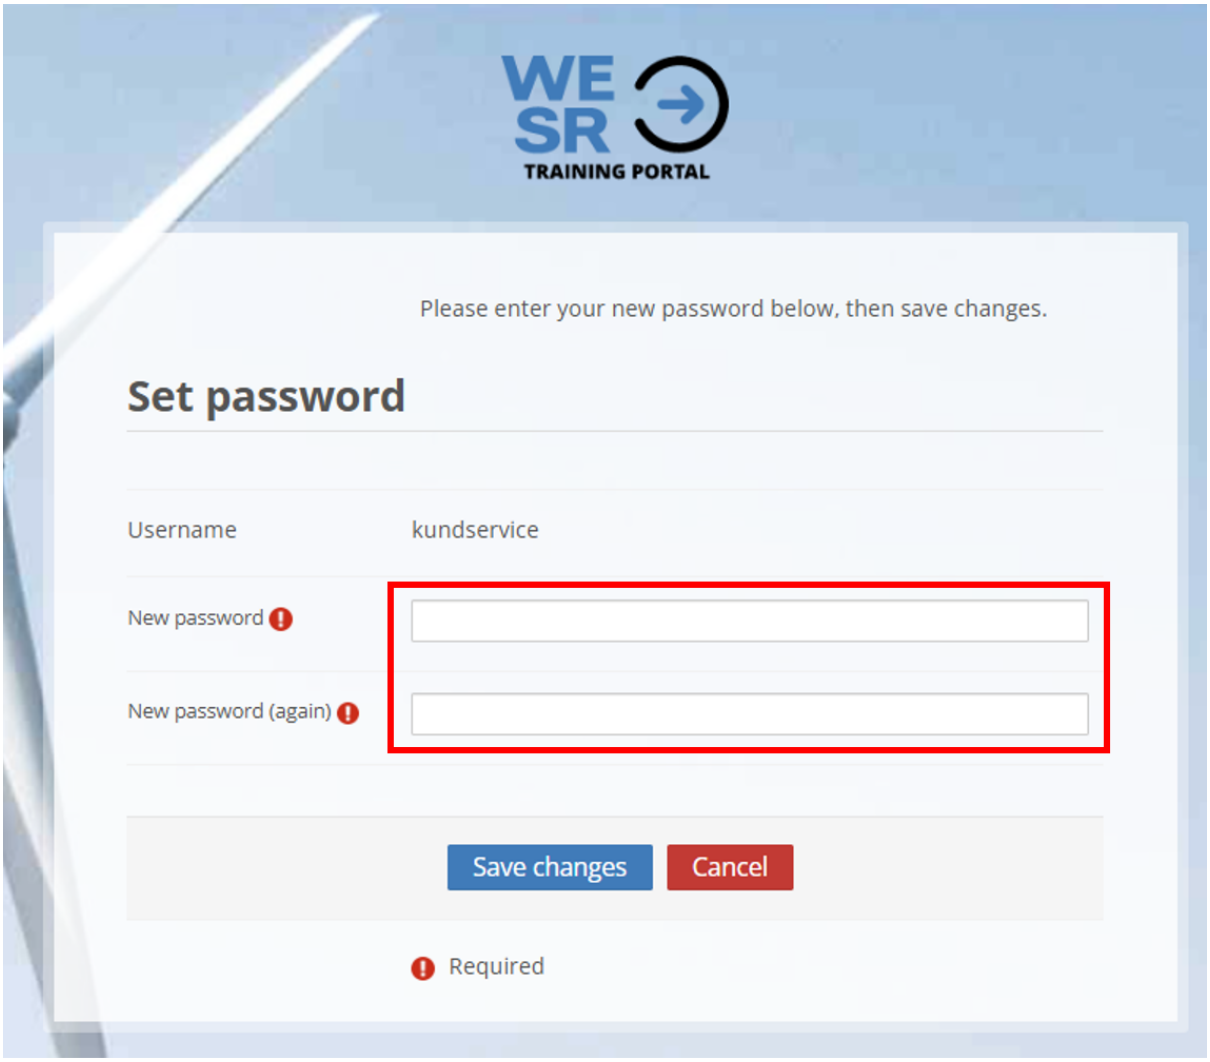

6. Enter your new password

The link in the email takes you to a page where you can re-set your password.

In the first text box, enter your new password.

Repeat the password in the second text box.

Click on the button "**Save changes**" to confirm your changes.

7. Finished

You have now changed your password successfully and you are now logged in on the WESR AP portal.
